NOTE: Please be advised that comp time is not required. 811.0 FAMILY AND MEDICAL LEAVE ACT POLICY

Twelve (12) weeks of job-protected leave (FLMA leave) is provided to most eligible employees for certain family and medical reasons during any twelve-month period. Employees are eligible if they have been employed with the district for at least one year and have worked at least 1,250 hours over the previous twelve months.

During the FMLA leave, employees are required to use accrued paid vacation and eligible sick leave first. If an employee has less than twelve weeks of accrued vacation, eligible sick leave, and personal leave, the employee may be able to take the time remaining up to twelve weeks as unpaid FMLA leave. Employees will continue to accrue vacation and sick leave while using their vacation and eligible sick leave. However, they will cease to accrue vacation and sick leave during the unpaid portion of the leave. Intermittent or reduced schedule FMLA leave may be permitted by the district under some circumstances.

The employees are entitled to leave:

- To care for a child following birth or for placement of a child with the employee for adoption or foster care.
- To care for the employee's spouse, child, or parent who has a serious health condition.
- If the employee is unable to perform his/her own job because of the employee's own serious health condition.

If both spouses are employed by the district, the total leave for both spouses is limited to twelve (12) weeks if the leave is taken for birth, adoption, or foster care of a child, or to care for a sick child or parent.

Employees are required to give written notice thirty (30) days in advance when the leave is foreseeable or with as much notice as is practical. Employees must make a reasonable effort to schedule foreseeable planned medical treatment so as not to unduly disrupt the operations of the district, subject to the approval of health care providers. The district reserves the right to request medical certification supporting the leave, and may require second or third opinions (at the District's expense) and a fitness of duty report to return to work. Leave may be denied if these requirements are not met. If the leave is sought on an intermittent or reduced schedule basis, it must have prior approval from the District. The medical certification must contain additional declarations stating that intermittent or reduced schedule leave is medically necessary and the amount of time that the intermittent or reduced schedule leave will be needed.

Additional requirements may apply to employees who are employed principally in an instructional capacity. If FMLA leave is taken close to the end of the academic term (within a few weeks), the employee may be required to continue taking the leave until the end of the term.

To protect employees' privacy rights, medical certifications will be treated as confidential medical records, and information will be disclosed only on a strictly need-to-know basis.

Most employees returning from FMLA leave will be restored to their original or equivalent positions with equivalent pay, benefits, and other employment terms. Some exceptions may apply for highly compensated employees, employees among the highest paid ten percent (10%) of the District.

818.3 Bus Driver Duties

The most important duty of the bus driver is the safety of the students on the bus. No distractions, personal matters, physical conditions, or other matters should detract from this primary responsibility. Specifically, the driver is expected to:

1. Must stop at all railroad crossings and have visual and audible proof that it is safe to cross the railroad before doing so.
2. Make proper use of “stop arm” which governs the stopping of traffic past the school bus.
3. Must know the vehicle is in safe, proper operating condition. The driver will be certain to check tires, lights, stop arm, controls, and especially brake each time he/she expects to drive the bus.
4. Maintain reasonable disciplinary control of all passengers. Excessive noise and commotion inside the bus can prevent the driver from hearing warning signal either inside or outside the bus.
5. Each passenger on the bus must be seated. No one should be allowed to stand and no one may be seated in front of a line parallel to the back of the bus driver’s seat.
6. Report all accidents to the local school authorities and the State Department of Law Enforcement. Forms for reporting any accident may be obtained from the State Department of Law Enforcement and should be carried on each bus.
7. Must load and unload only from the right hand side of the road with clear vision of at least one hundred yards in both directions.
8. School bus speed shall not exceed the posted speed limit.
9. Remember the school bus driver has complete responsibility for the operation of his/her passengers.
10. It shall be the duty of every school bus driver to report the license number of any vehicle that violates any law endangering school children to his/her immediate supervisor.

818.7 – Drug & Alcohol Testing for School Bus & Commercial Vehicle Drivers

The District shall adhere to federal law and regulations requiring a drug and alcohol testing program for school bus and commercial vehicle drivers. School bus and commercial vehicle drivers shall be subject to a drug and alcohol testing program that fulfills the requirements of the Code of Federal Regulations, Title 49, Part 382. Other persons who drive vehicles designed to transport sixteen (16) or more passengers, including the driver, are likewise subject to the drug and alcohol testing program.

This program shall comply with the requirements of the Code of Federal Regulations, Title 49, §§ 382, et seq. The Superintendent shall adopt and enact regulations consistent with the federal regulations, defining the circumstances and procedures for the testing.

Testing procedures and facilities used for the tests shall conform with the requirements of the Code of Federal Regulations, Title 49, §§ 40, et seq.

Pre-Employment Tests

Tests shall be conducted before the first time a driver performs any safety-sensitive function for the District.

Safety-sensitive functions include all on-duty functions performed from the time a driver begins work or is required to be ready to work, until he/she is relieved from work and all responsibility for performing work. It includes driving; waiting to be dispatched; inspecting and servicing equipment; supervising, performing, or assisting in loading and unloading; repairing or obtaining and waiting for help with a disabled vehicle; performing driver requirements related to accidents; and performing any other work for the District or paid work for any entity.

The tests shall be required of an applicant only after he/she has been offered the position.

Exceptions may be made for drivers who have had the alcohol test required by law within the previous six (6) months and participated in the drug testing program required by law within the previous thirty (30) days, provided that the District has been able to make all verifications required by law.

Post-Accident Tests

Alcohol and controlled substance tests shall be conducted as soon after an accident as practicable on any driver:

1. who was performing safety-sensitive functions with respect to the vehicle, if the accident involved loss of human life; or
2. who receives a citation under state or local law, for a moving traffic violation arising from the accident.

Drivers shall make themselves readily available for testing, absent the need for immediate medical attention.

No such driver shall use alcohol for eight (8) hours after the accident, or until after he/she undergoes a post-accident alcohol test, whichever occurs first.

If an alcohol test is not administered within two (2) hours or if a drug test is not administered within thirty-two (32) hours, the District shall prepare and maintain records explaining why the test was not conducted. Tests will not be given if not administered within eight (8) hours after the accident for alcohol or within thirty-two (32) hours for drugs.

Tests conducted by authorized federal, state, or local officials will fulfill post-accident testing requirements provided they conform to applicable legal requirements and are obtained by the District. Breath tests will validate only the alcohol test and cannot be used to fulfill controlled substance testing obligations.

Random Tests

Tests shall be conducted on a random basis at unannounced times throughout the year. Tests for alcohol shall be conducted just before, during, or just after the performance of safety-sensitive functions. The number of random alcohol tests annually must equal 25% of the average number of driver positions. The number of random drug tests annually must equal 50% of the average number of driver positions. Drivers shall be selected by a scientifically valid random process, and each driver shall have an equal chance of being tested each time selections are made.

Reasonable Suspicion Tests

Tests shall be conducted when a supervisor or District official trained in accordance with law has reasonable suspicion that the driver has violated the District's alcohol or drug prohibitions. This reasonable suspicion must be based on specific, contemporaneous, articulable observations concerning the driver's appearance, behavior, speech, or body odors. The observations may include indications of the chronic and withdrawal effects of controlled substances.

Alcohol tests are authorized for reasonable suspicion only if the required observations are made during, just before, or just after the period of the work day when the driver must comply with alcohol prohibitions. An alcohol test may not be conducted by the person who determines that reasonable suspicion exists to conduct such a test. If an alcohol test is not administered within two (2) hours of a determination of reasonable suspicion, the District shall prepare and maintain a record explaining why this was not done. Attempts to conduct alcohol tests shall terminate after eight (8) hours.

A supervisor or District official who makes observations leading to a controlled substance reasonable suspicion test shall make a written record of his/her observations within twenty-four (24) hours of the observed behavior or before the results of the drug test are released, whichever is earlier.

Enforcement

Any driver who refuses to submit to a post-accident, random, reasonable suspicion, or follow-up test shall not perform or continue to perform safety-sensitive functions.

Drivers who test positive for alcohol or drugs shall be subject to disciplinary action up to and including dismissal.

A driver who violates District prohibitions related to drugs and alcohol shall receive from the District the names, addresses, and telephone numbers of substance abuse professionals and counseling and treatment programs available to evaluate and resolve drug and alcohol-related problems. The employee shall be evaluated by a substance abuse professional who shall determine what help, if any, the driver needs in resolving such a problem. Any substance abuse professional who determines that a driver needs assistance shall not refer the driver to a private practice, person, or organization in which he/she has a financial interest, except under circumstances allowed by law.

An employee identified as needing help in resolving a drug or alcohol problem shall be evaluated by a substance abuse professional to determine that he/she has properly followed the prescribed rehabilitation program and shall be subject to unannounced follow-up tests after returning to duty.

Return-to-Duty Tests

A drug or alcohol test shall be conducted when a driver who has violated the District's drug or alcohol prohibition returns to performing safety-sensitive duties.

Employees whose conduct involved drugs cannot return to duty in a safety-sensitive function until the return-to-duty drug test produces a verified negative result.

Employees whose conduct involved alcohol cannot return to duty in a safety-sensitive function until the return-to-duty alcohol test produces a verified result that meets federal and District standards.

Follow-Up Tests

A driver who violates the District's drug or alcohol prohibition and is subsequently identified by a substance abuse professional as needing assistance in resolving a drug or alcohol problem shall be subject to unannounced follow-up testing as directed by the substance abuse professional in accordance with law. Follow-up alcohol testing shall be conducted just before, during, or just after the time when the driver is performing safety-sensitive functions.

Records

Employee drug and alcohol test results and records shall be maintained under strict confidentiality and released only in accordance with law. Upon written request, a driver shall receive copies of any records pertaining to his/her use of drugs or alcohol, including any records pertaining to his/her drug or alcohol tests. Records shall be made available to a subsequent employer or other identified persons only as expressly requested in writing by the driver.

Notifications

Each driver shall receive educational materials that explain the requirements of the Code of Federal Regulations, Title 49, Part 382, together with a copy of the District's policy and regulations for meeting these requirements. Representatives of employee organizations shall be notified of the availability of this information. The information shall identify:

2. the categories of drivers who are subject to the Code of Federal Regulations, Title 49, Part 382;

4. specific information concerning driver conduct that is prohibited by Part 382;
5. the circumstances under which a driver will be tested for drugs and/or alcohol under Part 382;
6. the procedures that will be used to test for the presence of drugs and alcohol, protect the driver and the integrity of the testing processes, safeguard the validity of test results, and ensure that test results are attributed to the correct driver;
7. the requirement that a driver submit to drug and alcohol tests administered in accordance with Part 382;
8. an explanation of what constitutes a refusal to submit to a drug or alcohol test and the attendant consequences;
9. the consequences for drivers found to have violated the drug and alcohol prohibitions of Part 382, including the requirement that the driver be removed immediately from safety-sensitive functions and the procedures for referral, evaluation, and treatment;
10. the consequences for drivers found to have an alcohol concentration of 0.02 or greater but less than 0.04; and
11. information concerning the effects of drugs and alcohol on an individual's health, work, and personal life; signs and symptoms of a drug or alcohol problem (the driver's or a coworker's); and available methods of intervening when a drug or alcohol problem is suspected, including confrontation, referral to an employee assistance program, and/or referral to management.

Drivers shall also receive information about legal requirements, District policies, and disciplinary consequences related to the use of alcohol and drugs.

Each driver shall sign a statement certifying that he/she has received a copy of the above materials.

Before any driver operates a commercial motor vehicle, the District shall provide him/her with post-accident procedures that will make it possible to comply with post-accident testing requirements.

Before drug and alcohol tests are performed, the District shall inform drivers that the tests are given pursuant to the Code of Federal Regulations, Title 49, Part 382. This notice shall be provided only after the compliance date specified in law.

The District shall notify a driver of the results of a pre-employment drug test if the driver requests such results within sixty (60) calendar days of being notified of the disposition of his/her employment application.

The District shall notify a driver of the results of random, reasonable suspicion, and post-accident drug tests if the test results are verified positive. The District shall also tell the driver which controlled substance(s) were verified as positive.

Drivers shall inform their supervisors if at any time they are using a controlled substance which their physician has prescribed for therapeutic purposes. Such a substance may be used only if the physician has advised the driver that it will not adversely affect his/her ability to safely operate a commercial motor vehicle.

Do Not Use the District's Name, Logos, or Images

Employees shall not use the District logos, images, iconography, etc. on personal social media sites. Nor shall employees use the District name to promote a product, cause, political party, or political candidate. Nor shall employees use personal images of students, names, or data relating to students, absent written authority of the parent of a minor or authority of an adult or emancipated student.

Respect District Time and Property

No Use of Social Media during Work Hours or on District Equipment
District computers and time on the job are reserved for District-related business. Employees shall not use District time or property on personal e-mail or social media sites.

On Personal Sites

If you identify yourself as a District employee online, it should be clear that the views expressed, posted, or published are personal views, not necessarily those of the District, its Board, employees, or agents.

Opinions expressed by staff on a social networking website have the potential to be disseminated far beyond the speaker's desire or intention, and could undermine the public perception of fitness of the individual to work with students, and thus undermine effectiveness. In this way, the effect of the expression and publication of such opinions could potentially lead to disciplinary action being taken against the staff member, up to and including termination or nonrenewal of the contract of employment

Keep Personal and Professional Accounts Separate

Staff members who decide to engage in professional social media activities will maintain separate professional and personal email addresses. Staff members will not use their District email address for personal social media activities. Use of District email for this purpose is prohibited and will be considered a violation of District policy that may result in disciplinary action.

Contact with Students

Although it is desired that staff members have a sincere interest in students as individuals, partiality and the appearance of impropriety must be avoided. Pursuant to the Code of Ethics for Idaho Professional Educators, individuals shall maintain a professional relationship with all students, both inside and outside of the classroom. Excessive informal or social involvement with students is therefore prohibited. This includes:

1. Listing current students as “friends” on networking sites wherein personal information is shared or available for review which results in the classified employee not maintaining the Code of Ethics requiring professional relationships with students both inside and outside the classroom;
2. Contacting students through electronic means other than the District’s email and telephone system;
3. Coaches electronically contacting a team member or members without including all team members in the communication;
4. Giving private cell phone or home phone numbers to students without prior approval of the District; and
5. Inappropriate contact of any kind including via electronic media.

Nothing in this policy prohibits District staff and students from the use of education websites or use of social networking websites created for curricular, co-curricular, or extracurricular purposes where the professional relationship is maintained with the student.

Failure to maintain a professional relationship with students, both inside and outside of a classroom setting, including interaction via social networking websites of any nature, e-mailing, texting, or any other electronic methods will result in the required reporting of such conduct to the Professional Standards Commission by the District’s Administration.
